DETAILED ACTION

Specification

1. The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-78 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 78 are rejected because the language "selected from a group of corrosion inhibiting compounds" is improper Markush language. Also, "at least one phosphonate selected from a group consisting of "is improper Markush language.

In claims 1 and 78, it is not clear how ferric pyrophosphate and ferric orthophosphate can be both soluble and insoluble. It is known that soluble ferric pyrophosphate is a combination of ferric pyrophosphate and sodium citrate; however, it is not clear from the claims or the specification if this is the compound that applicant is claiming. Also, regarding the corrosion inhibitors, it is not clear in what environment these compounds are soluble and insoluble, e.g., water, alcohol, acid, etc. It is known that ferric pyrophosphate is insoluble in water but soluble in dilute acid. However, given

that Applicant is claiming a composition wherein neither water nor an inorganic acid are present, it is difficult to ascertain what applicant is claiming with respect to these soluble and insoluble compounds.

Claims 2, 26, 47 and 59 are rejected because "selected from a group of " is improper Markush language.

Claims 4, 49, and 53 are rejected because it is not clear what "in concentrate" means.

Claims 5, 32, 50 and 77 are rejected because "selected from a group" is improper Markush language, and it is not clear what constitutes "highly colored coloring agents".

In claims 7, 27, 52, and 60, it is not clear if insoluble and soluble refers to the compound being insoluble or insoluble in the composition per se, or if the compound is insoluble or soluble in some other medium, e.g., water, acid, alcohol, etc. Clarification is required.

The prior art made of record and not relied upon is cited for teaching the general state of the art and is considered pertinent to applicant's disclosure.
